PROJECTS

“IT GUIDE” Mar 2024 - Apr 2024
Web Application, College
A Comprehensive Web Application for Travel Enthusiasts Welcome to ITGUIDE! This is a dynamic web application designed to simplify the travel planning and booking process for users worldwide. With a focus on user convenience and engagement, ITGUIDE offers a wide range of features to cater to the diverse needs of travelers.

“Water Tank Management System Using WhatsApp” Feb 2023 - Mar 2023
Electronics (IOT), College
The Water Tank Management System utilizes an Arduino Uno, ultrasonic distance sensor, and GSM module to monitor water levels and send alerts via WhatsApp. The ultrasonic sensor measures the distance to the water's surface, allowing precise level tracking. If the water level falls below predefined thresholds, the system triggers alerts. It communicates through a GSM module using AT commands, ensuring seamless WhatsApp message delivery.
